

## About Us!

City impact is a Christ-centered organization working side by side staff and volunteers to serve the needs of the Tenderloin. During the week, we often host numerous mission teams that help serve in the Tenderloin through each of our departments.

## Our Mission

We exist to intervene  
on behalf of the  
people of the  
Tenderloin.

## Tenderloin

San Francisco, which has a population of around 800,000 people, is the most unchurched city in all of America. And the Tenderloin alone, which carries a population of over 30,000 people concentrated within  $\frac{1}{3}$  of a mile, has almost 4,000 people living on the streets. Hopelessness, brokenness, godlessness, and addictions are all realities that run rampant within this community.
